

V-270

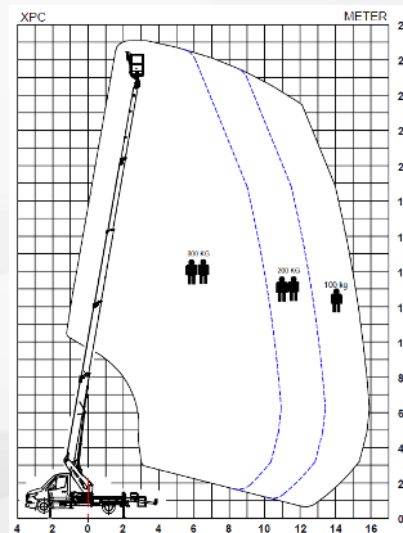

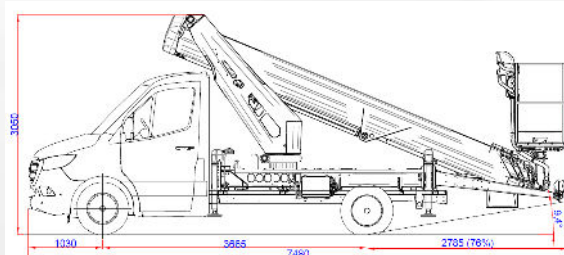

VERSALIFT

Maximum Height. Uncompromising Performance

At **27 m**, the V-270 sits at the top of the V-Range, offering exceptional working height on a 3.5 t platform. With a class-leading **300 kg** platform capacity, it enables operators to work with more tools, equipment and materials while maintaining outstanding reach and productivity. Built for operations that demand exceptional height, capacity and perfor-

mance, with the full stability and control of the V-Range architecture. A machine that makes demanding high-level work accessible without requiring a heavier vehicle class or a specialist driving licence. For fleet operators, the V-270 is a high-performance asset that stays deployable across the widest possible pool of operators.

Working Height	27 m
Max. Outreach	16 m
Platform Capacity	300 kg
GVW	3,500 kg
Platform Size	1.4 x 0.7 x 1.1 m
Wheelbase	3,665 mm
Rotation	2 × 210°
Height	3,050 mm
Length	7,480 mm

Stable, durable steel construction
(fine-grained steel)

Ideal for: Infrastructure companies · Highway contractors · Rental
